	31 <u>\$1 1884-O PCGS MS67 CAC CORONET COLLECTION</u> The Coronet Collector outdid themselves! This very high-end 1884-O offers surprisingly clean, smooth surfaces that are a joy to behold. There are no problems to be found, even through a strong glass, and a super strong luster shows off crisp, white colors. Miss Liberty and the details are fully struck and have strong frost. The cheek is superb and the eye appeal is tremendous! PCGS 104, NGC 118, CAC 19. PCGS has graded only one coin higher and the current Collectors Universe value is \$3,000.00. That seems a little low for a coin as nice as this. This coin is being sold with no reserve. Certification Number 28286085 PCGS # 7154	Estimate: 2,500.00 - 2,750.00 USD
	32 <u>\$1 1884-S PCGS MS64 CAC CORONET COLLECTION</u> This is a real deal 1884-S in MS64. The Coronet Collector had his eyes on the MS68, but the owners didn't want to sell, so you better believe this coin is nice. As is typical for any Morgan, there are a few light, scattered marks and ticks, but nothing is serious or stands out. A strong luster enhances original, deep champagne/creamy white original colors spread all over. Miss Liberty and the details are exceedingly well struck and lightly frosted. The cheek is surprisingly clean and rounded and the eye appeal is excellent! PCGS 12, NGC 13, CAC 5. The only coins graded higher are an MS65 and an MS68, though a PCGS MS64 CAC did sell for \$123,475.00 (1/15) in a weak sale. This is a terrific opportunity to place a great coin in a "key date" hole. Opportunity knocks! This coin is being sold with no reserve. Certification Number 28286086 PCGS # 7156	Estimate: 110,000.00 - 125,000.00 USD
	33 <u>\$1 1885 PCGS MS68+ CAC CORONET COLLECTION</u> There isn't even a single microscopic issue to be found on this borderline MS69. Silky smooth surfaces are slightly semi-prooflike and have a strong luster. A gorgeous, cascading, iridescent rainbow crescent covers one third of the obverse, while the balance of the coin is a heart pounding creamy white. Miss Liberty and the details are frosty and pinpoint sharp. The eye appeal is awesome! PCGS 1, NGC 5, CAC 2. This is the only MS68 or MS68+ graded by PCGS and it last sold for \$21,150.00 (4/13). After nearly 30 years of operations PCGS is unlikely to find a better 1885. This coin stands alone as the finest graded with over 17 million minted! Even if you don't collect Morgans, this will make one heck of a Type coin! This coin is being sold with no reserve. Certification Number 28286087 PCGS # 7158	Estimate: 25,000.00 - 27,500.00 USD
	34 <u>\$1 1885-CC PCGS MS68+ CAC EX JACK LEE</u> CORONET COLLECTION Yet another out of this world borderline MS69 Carson City Morgan! As you can tell, the Coronet Collector worked diligently to obtain only the very best CC's. We believe that only a single well hidden tick is all that keeps this coin from an MS69 designation. The surfaces appear flawless and a bold luster shows off vibrant, pale green/blue/gold colors that swirl all over. Miss Liberty and the details are fully struck and lightly frosted. Although the toning is slightly mottled on the cheek, we assure you there are zero hidden impairments. The eye appeal is memorable! PCGS 1, NGC 0, CAC 1. There is not even an MS68 graded. The Coronet Collector fell in love with this coin and purchased it via private treaty for a six figure sum. Remember that Jack Lee had this coin in his almighty set too, and he would stop at nothing to obtain the very best. We expect intense bidding on this masterpiece. This coin is being sold with no reserve. Certification Number 28286088 PCGS # 7160	Estimate: 90,000.00 - 100,000.00 USD
	35 <u>\$1 1885-O PCGS MS67+ CAC CORONET COLLECTION</u> This coin emerged from a small, high-end group of Morgans that surfaced a few years back. If this were in an MS68 holder we wouldn't even bat an eye. This clean, smooth piece reveals no impairments of any kind, while both sides enjoy a strong luster and original, snowy white colors. Miss Liberty and the details are frosted and crisply struck. The cheek is amazingly clean and the eye appeal is phenomenal! PCGS 255, NGC 562, CAC 129. PCGS has graded ten in MS67+ and the last to sell brought \$4,406.25 in our February 2014 sale (2/14). This coin is being sold with no reserve. Certification Number 28286089 PCGS # 7162	Estimate: 3,750.00 - 4,000.00 USD

	36 \$1 1885-S PCGS MS66+ CAC CORONET COLLECTION One look and you'll fall in love with this incredibly high-end piece, just like the Coronet Collector did. We believe the only thing holding this coin back from an MS67 designation is one tiny frost break in front of the nose. That being said we wouldn't be surprised to see it in an MS67 holder one day. The incredibly clean, smooth surfaces are nearly fully prooflike and show off an intense luster. Both sides have original, pale gold/violet colors framing the rims, while Miss Liberty and the details are fully struck and thickly frosted a silvery white. The eye appeal is mesmerizing! PCGS 38, NGC 14, CAC 6. This is the only MS66+ graded by PCGS. There are two MS67s but neither are CAC stickered. This coin has never sold at auction, but the current Collectors Universe value is \$9,500.00. Considering the last PCGS MS67 sold for \$48,875.00 we expect this coin realize much more than the CU value. This is one incredible 1885-S! This coin is being sold with no reserve. Certification Number 28286090 PCGS # 7164	Estimate: 7,500.00 - 8,500.00 USD
	37 \$1 1886 PCGS MS68 CAC CORONET COLLECTION Yet another virtually perfect Morgan! You can tell, especially on the more common dates, just how selective the Coronet Collector has been. This coin is far superior to any typical 1886-P you'll see! There are zero impairments of any kind and a strong luster shows off original creamy white/pale champagne/light gold colors splashed all over. Miss Liberty and the details are sharply struck and lightly frosted. The eye appeal is excellent! PCGS 6, NGC 26, CAC 1. A PCGS non CAC piece sold at auction for \$19,975.00 (7/14), though we think this beautiful piece will have no problem eclipsing that price! PCGS # 7166 EST: \$20,000.00+ This coin is being sold with no reserve. Certification Number 28286091 PCGS # 7166	Estimate: 20,000.00 - 22,000.00 USD
	38 \$1 1886-O PCGS MS65+ CAC EX ELIASBERG CORONET COLLECTION Aside from the 1886-O PCGS MS67DMPL, this piece is universally acknowledged as the finest 1886-O in existence and is one of the most misunderstood and undervalued rarities in the collection. There is no question that this once in a lifetime coin has been carefully saved since the day it was picked out at the bank. It looks more like an 1886 than an 1886-O. Spectacularly clean, smooth surfaces show above average luster which enhances the original, creamy white/pale gold surfaces. Miss Liberty and the details have remarkably full strikes that stand out nicely. The cheek is even cleaner than what you typically see on high grade 1880-S Morgans. The eye appeal is sensational! PCGS 2, NGC 0, CAC 2. This piece was purchased via private treaty for \$275,000.00 by the Coronet Collector. We're baffled as to why only two MS65s have been graded after thirty years of PCGS operations. Not to mention that this coin was previously in the world famous Louis Eliasberg Collection. His dollars were special as well and we have several in The Coronet Collection including the 1891-CC PCGS MS68PL. If you're building a top collection, this coin is a must have. This coin is being sold with no reserve. Certification Number 28286092 PCGS # 7168	Estimate: 200,000.00 - 220,000.00 USD
	39 \$1 1886-S PCGS MS67 CAC EX JACK LEE CORONET COLLECTION Yet another spectacular Morgan with the Jack Lee pedigree! Not only will this coin tickle any regular Morgan lover's fancy, the reverse has killer colors. Clean, sleek surfaces have slight traces of semi-prooflike mirrors while an intense luster shows off original, creamy white/gold on the obverse, and a swirling pattern of royal blue/apricot/gold/pale magenta on the reverse. Miss Liberty and the details are thickly frosted and sharply struck. The cheek is wonderful and the eye appeal is exceptional! PCGS 4, NGC 2, CAC 2. There are none finer and no PCGS CAC pieces have ever sold at auction. The current Collectors Universe value is \$30,000.00. We haven't seen any 1886-S MS67s offered in the past year or two, so opportunity knocks here! This coin is being sold with no reserve. Certification Number 28286093 PCGS # 7170	Estimate: 25,000.00 - 27,500.00 USD
	40 \$1 1887 PCGS MS67 CAC CORONET COLLECTION This is a very pleasing example of a gem 1887 Morgan! Outstanding clean, smooth surfaces show a few light frost breaks, but nothing major detracts from the eye appeal. A strong luster shows off original, creamy white color that mixes with light gold. Miss Liberty and the details are well struck. The eye appeal is excellent! PCGS 118, NGC 348, CAC 33. The last PCGS CAC MS67 to sell brought \$1,995.00 (6/14). Don't be fooled by the Pop Reports, you don't see PCGS CAC pieces offered very frequently. This coin is being sold with no reserve. Certification Number 28286094 PCGS # 7172	Estimate: 1,500.00 - 1,750.00 USD
	41 \$1 1887-O PCGS MS66+PL CAC CORONET COLLECTION We're not sure why this coin is not graded MS67PL. Incredible 6" deep mirrors are mark free and almost full DMPL status. A flashy, booming luster shows off undipped, problem free white surfaces. Miss Liberty and the details are fully struck and stand out with thick, snowy white frost. The cheek is amazingly clean and the eye appeal is jaw dropping! PCGS 1, NGC 0, CAC 1. We've never seen another 1887-O even remotely similar to this. In 2009 the lone 1887-O MS66 sold for a mere \$38,815.00, but that was five years ago and this coin is even nicer. The Coronet Collector bought this wild gem via private treaty for \$75,000.00 and once you see this coin, you'll agree that it's a record breaker! This coin is being sold with no reserve. Certification Number 28286095 PCGS # 7177	Estimate: 60,000.00 - 70,000.00 USD
	42 \$1 1887-S PCGS MS67 CORONET COLLECTION Although we feel this is a very nice piece, CAC did not agree. The surfaces are mostly clean and smooth with just one small bag mark hidden in the right obverse. This is the only issue we could find, but it may be why CAC neglected to sticker it. A strong luster shows off original, pretty shades of golden brown/pale reddish gold/pale auburn that open into white centers. Miss Liberty and the details are frosty and have full, frosty strikes. The eye appeal is very pretty! PCGS 1, NGC 1. There are no MS67 CAC examples and no PCGS MS67 has ever sold at auction, but the current Collectors Universe value is \$32,500.00. This is still a must have coin for anyone building the finest Morgan set! The Coronet Collector is very picky and would never buy a coin solely for the holder. This coin is being sold with no reserve. Certification Number 28286096 PCGS # 7180	Estimate: 25,000.00 - 27,500.00 USD
	43 \$1 1888 PCGS MS67 CAC EX JACK LEE CORONET COLLECTION Superb in every respect! Jack Lee did whatever it took to build his great collection and it's a testament to this coin that it was both the one he and the Coronet Collector chose for their illustrious collections. The surfaces are pristine and sleek while a full, booming luster shows off original, silvery white surfaces. Miss Liberty and the details are exceptionally struck. The cheek is above average and the eye appeal is excellent! PCGS 30, NGC 78, CAC 5. The last PCGS CAC piece to sell at auction brought \$16,100.00 (1/12). With so few surfacing on the market, plus the prestigious pedigrees, we expect intense bidding on this coin. The current Collectors Universe value of \$7,000.00 is simply too low. Good luck! This coin is being sold with no reserve. Certification Number 28286097 PCGS # 7182	Estimate: 7,500.00 - 8,500.00 USD

	44 \$1 1888-O PCGS MS66+ CAC CORONET COLLECTION	Estimate: 3,000.00 - 3,500.00 USD
	PCGS was very harsh on this borderline MS67 gem. The surfaces are incredibly clean, smooth, and devoid of any issues, even through a strong glass. There are some hints of semi-prooflike mirror and a full, booming luster shows off the beautiful, original, snowflake white surfaces. Miss Liberty and the details are fully struck and lightly frosted. The cheek is amazingly clean and helps make this coin look more like a common date than an 1888-O. The eye appeal is tremendous! PCGS 266, NGC 49, CAC 49. PCGS has graded 23 in MS66+ with none higher. The last of these to sell at auction brought \$3,290.00 (1/15). This 1888-O is that exceptional and we'll put it up against any MS66+! This coin is being sold with no reserve. Certification Number 28286098 PCGS # 7184	
	45 \$1 1888-S PCGS MS67 CAC CORONET COLLECTION	Estimate: 22,000.00 - 25,000.00 USD
	This coin is pretty much perfect! Smooth surfaces reveal no imperfections, while a strong luster enhances thickly coated toning. Moderate shades of pale olive/purple/champagne/gold swirl over both sides. Miss Liberty and the details are fully struck and the eye appeal is pleasing! PCGS 3, NGC 1, CAC 2. PCGS/NGC have graded none higher. This piece last sold for \$21,850.00 (1/09) and we haven't seen any on the market since then. Opportunity knocks! This coin is being sold with no reserve. Certification Number 28286099 PCGS # 7186	
	46 \$1 1889 PCGS MS66 CAC CORONET COLLECTION	Estimate: 2,000.00 - 2,250.00 USD
	The Coronet Collector stopped at nothing to find yet another significantly above average piece. The surfaces are extremely clean and smooth with just a few trivial frost breaks. A strong luster shows off original white colors that mix with auburn/blue by the rims. Miss Liberty and the details are frosted with strong strikes. The eye appeal is very pretty! PCGS 277, NGC 225, CAC 57. The last PCGS CAC piece to sell brought \$2,350.00 (8/14). This piece will be a fine addition to any gem set! This coin is being sold with no reserve. Certification Number 28286100 PCGS # 7188	
	47 \$1 1889-CC PCGS MS64 CAC CORONET COLLECTION	Estimate: 90,000.00 - 100,000.00 USD
	At one point this very high-end coin was in an MS64+ holder and it has been resubmitted multiple times, with its previous owner even thinking it had a shot at MS65! This is clearly an above average 1889-CC, which at first glance looks like a more common date. The surfaces are seriously clean and smooth with just a few tiny, widely scattered ticks/frost breaks to be found. A surprisingly strong luster shows off original white surfaces. Miss Liberty and the details are lightly frosted and fully struck. The cheek has above average cleanliness and the eye appeal is fantastic! PCGS 31, NGC 43, CAC 4. PCGS has graded only two coins higher, an MS65 and the famous MS68. The last PCGS MS64 CAC to sell at auction brought \$117,500.00 (8/12) while a PCGS non CAC brought \$105,750.00 (6/14). As you can see, 1889-CCs in MS64 don't appear very frequently! This high-end Coronet piece will be a perfect fit in any gem Morgan or CC set! This coin is being sold with no reserve. Certification Number 28286101 PCGS # 7190	
	48 \$1 1889-O PCGS MS66 CAC CORONET COLLECTION	Estimate: 17,500.00 - 20,000.00 USD
	This is one of the finest 1889-Os we have ever seen and we can't understand why this amazing coin is not at least an MS66+! This mesmerizing piece looks more like an 1882-S, not an 1889-O! Impeccably clean surfaces have a full, satiny texture and an intense luster. Both sides are an original, undipped, unaltered fluffy white. Miss Liberty and the details are lightly frosted and exceptionally struck. The eye appeal is spectacular! PCGS 11, NGC 3, CAC 3. No PCGS MS66 CAC piece has ever sold at auction, but the last PCGS non CAC piece to sell brought \$17,625.00 (1/14). We'd be shocked if this coin didn't bring a record price. Good luck! This coin is being sold with no reserve. Certification Number 28286102 PCGS # 7192	
	49 \$1 1889-S PCGS MS66 CAC EX JACK LEE 2	Estimate: 4,000.00 - 4,500.00 USD
	CORONET COLLECTION One look and you'll fall in love with this high-end gem that was owned by both Jack Lee and our Coronet Collector! The surfaces are incredibly clean and sleek, with marks, ticks, and lines held to a bare minimum. A full, booming luster shows off light, original gold and creamy white all over. Miss Liberty and the details are lightly frosted and fully struck. The eye appeal is tremendous! PCGS 79, NGC 30, CAC 13. We haven't seen any of these sell in any major auctions over the past few years, but don't be fooled by the Pop Reports, these are not easy to find, especially with a CAC sticker. This coin is being sold with no reserve. Certification Number 28286103 PCGS # 7194	
	50 \$1 1890 PCGS MS65+ CAC CORONET COLLECTION	Estimate: 3,000.00 - 3,500.00 USD

A strong luster enhances undipped, unaltered, frosty white surfaces. Miss Liberty and the details are fully struck and have gorgeous, thick frost. The cheek is extra clean and the eye appeal is sensational! PCGS 533, NGC 316, CAC 39. Miss Liberty and the details are sharply struck and have thick, snowy white frost. The cheek is remarkably clean and the eye appeal is gorgeous! PCGS 13, NGC 4, CAC 4. This coin is being sold with no reserve. Certification Number 28286105 PCGS # 7198	
	52 \$1 1890-O PCGS MS66 CAC CORONET COLLECTION	Estimate: 9,000.00 - 10,000.00 USD
	One look be able to tell that the Coronet Collector had to have the perfect 1890-O for his world class collection. This piece definitely ranks among the top 2% graded! One tiny grease dot and a hidden tick are all that keep this coin from an MS67 designation, though we feel this coin has a chance to upgrade to MS66+ one day. Overall, the surfaces are exceptionally clean and smooth, while a surprisingly strong luster shows off original white surfaces with a hint of pale gold. Miss Liberty and the details are frosty and fully struck. The eye appeal is phenomenal! PCGS 24, NGC 5, CAC 4. The last PCGS CAC piece to sell at auction brought only \$11,750.00 (3/13), but surely nice looking coin like this will bring much more! This coin is being sold with no reserve. 	53 <u>\$1 1890-S PCGS MS67 CAC EX ELIASBERG</u>	Estimate: 15,000.00 - 17,500.00 USD
CORONET COLLECTION Everything about this borderline MS68 is mind boggling! Absolutely flawless surfaces reveal only two or three microscope ticks, and there are no lines or scuffs to be found. A strong luster enhances beautiful, original champagne/gold/pale purple colors splashed on both sides. This is not a dull or drab coin! Miss Liberty and the details are frosted and have full, crisp strikes. The cheek is one microscopic tick from perfection and the eye appeal is fabulous! PCGS 7, NGC 1, CAC 3. 	55 <u>\$1 1891-CC PCGS MS68PL CAC EX ELIASBERG</u>	Estimate: 175,000.00 - 200,000.00 USD
CORONET COLLECTION We suspect this coin may be either a Specimen or a Proof. Regardless there is clearly something different about it. This is not only one of the greatest Carson City coins to ever exist, but also one of the greatest Morgans of all time. Deep 8" mirrors appear slightly watery when twirled, like you would see on a Proof coin, and although they are very clear, they're difficult to see due to the toning. There is zero die polishing, dies lines, hits, or ticks of any kind. A moderate mix of pale, original champagne/gold/lavender colors splash all over. Miss Liberty and the details are needle sharp and have thick frost. The eye appeal is unbelievable! PCGS 1, NGC 0, CAC 1. The last time this coin sold at auction was back in 2006 when it realized \$195,500.00 (1/06). Legend Numismatics was the original buyer out of the Eliasberg sale and has since owned it a total of two times. There is no other Morgan on the planet aside from the Coronet 1893-S PCGS MS67 that captivates us the way this piece does. Please take the time to see this coin in hand, as it is far more than just a PL! This coin is being sold with no reserve. Certification Number 28286109 PCGS # 7207		
	56 <u>\$1 1891-O PCGS MS65+ CAC CORONET COLLECTION</u>	Estimate: 10,000.00 - 11,000.00 USD
This borderline MS66 is incredibly high-end! Only a few very light ticks keep this coin from being the first ever MS66 designated by PCGS and you can only see a few die grease dots with a strong glass. A full, booming luster like you'd see on an 1880-S beams from all over and both sides are a beautiful, original silky white. Most importantly, Miss Liberty and the details are frosty and have crisp, full strikes. The eye appeal is stunning! PCGS 103, NGC 69, CAC 13. PCGS has graded only four in MS65+ and none have sold at auction. The current Collectors Universe value is \$12,500.00. This is the way you want an 1891-O to look and it will fit nicely into any top gem collection. This coin is being sold with no reserve. Certification Number 28286110 PCGS # 7208

A full, booming luster shows off the crisp, original white color. Miss Liberty and the details are frosted and fully struck. The eye appeal is superb! PCGS 7, NGC 2, CAC 4. PCGS has graded only one in MS67+ and the last PCGS MS67 to sell at auction was a non stickered piece that brought \$14,375.00 back in 2009. The current Collectors Universe value is \$15,500.00. This coin's outstanding quality coupled with the fact that none have sold at auction in at least the last five years could equal a record price! Good luck! This coin is being sold with no reserve. Certification Number 28286111 PCGS # 7210		
	58 <u>\$1 1892 PCGS MS66 CAC CORONET COLLECTION</u>	Estimate: 45,000.00 - 50,000.00 USD
You rarely ever see an 1892 as clean as this coin. There are no scuffs and any ticks are tiny and widely scattered. A surprisingly full, booming luster beams from all over while the satiny surfaces are adorned by an original white color. Miss Liberty and the details are thickly frosted and fully struck. The cheek is remarkably clean and smooth and the eye appeal is tremendous! PCGS 5, NGC 1, CAC 1. PCGS has graded none higher and no PCGS CAC pieces have sold in a major auction. In fact the last PCGS coin to sell at auction brought \$43,125.00 (1/09) over six years ago! Opportunity knocks for the collector who loves exceedingly rare Morgans! A coin with the quality, rarity, and eye appeal like this piece exhibits may set a new record price! This coin is being sold with no reserve. Certification Number 28286113 PCGS # 7214		
	60 <u>\$1 1892-O PCGS MS65+ CAC CORONET COLLECTION</u>	Estimate: 12,500.00 - 15,000.00 USD
PCGS had no mercy on this high-end, borderline MS66. There are practically no ticks, marks, or lines to be found and the surfaces are satiny smooth. Small traces of semi-prooflike mirrors are visible and a full luster shows off the original, frosty white color. Miss Liberty and the details are heavily frosted and fully struck. The cheek will please even the pickiest buyer and the eye appeal is awesome! PCGS 188, NGC 81, CAC 18. PCGS has graded only six in MS65+, one of which sold for \$15,275.00 (1/14). 	61 <u>\$1 1892-S PCGS MS67 CAC EX ELIASBERG</u>	Estimate: 400,000.00 - 450,000.00 USD
CORONET COLLECTION Despite the presence of an MS68, this coin still ranks as one of the finest 1892-S in existence! It's nothing less than amazing! There is only one hidden tick on either side that we believe holds this coin back from being the second MS68. Flawless, satiny smooth surfaces are home to a killer, full, booming luster and traces of semi-prooflike mirrors visible when the coin is turned. A moderate, original mix of golden brown/champagne/blue flows freely all over. Miss Liberty and the details have generous frost and are fully struck. The eye appeal is terrific! PCGS 5, NGC 5, CAC 2. This coin last sold in an heated bidding war six years ago for \$460,000.00 (1/09). The MS68, which is CAC stickered and easily worth \$1 million, is locked up in an estate and the family has no plans on selling. If you buy only the very finest, this coin will be a superstar in your collection. Good luck! This coin is being sold with no reserve. Certification Number 28286115 PCGS # 7218		
	62 <u>\$1 1893 PCGS MS66 CAC CORONET COLLECTION</u>	Estimate: 40,000.00 - 45,000.00 USD
This monster is truly superior to most other 1893-Ps. It even looks like a more common date New Orleans Mint than an 1893. You can see some tiny ticks with a strong glass and two small Mint grease dots on the obverse, but overall the surfaces appear clean, smooth, and satiny. A full, booming luster enhances the crisp white color. Miss Liberty and the details are fully struck and thickly frosted. The eye appeal is tremendous! PCGS 6, NGC 4, CAC 2. No PCGS CAC piece has ever sold at auction and the last PCGS non CAC piece to sell brought \$44,063.00 (8/14). This is an incredibly overlooked date and grade with only six piece graded by PCGS after 30 years of operations! We expect strong bidding on this magnificent coin! This coin is being sold with no reserve. Certification Number 28286116 PCGS # 7220		
	63 <u>\$1 1893-CC PCGS MS65 CAC CORONET COLLECTION</u>	Estimate: 75,000.00 - 85,000.00 USD
This is a really nice piece, especially for a date that is famous for not coming in nice condition. You'll typically see them flat or hacked up, but this coin is far from either. You can see just a few tiny, scattered ticks, but no scuffs or serious lines. The reverse is easily an MS65+. An intense luster shows off beautiful, snowy white surfaces. Miss Liberty and the details are frosted and sharply struck with no flatness on the reverse. The eye appeal is fantastic! PCGS 12, NGC 7, CAC 3. The last PCGS MS65 piece to sell at auction was in 2001 and we find it hard to believe that there is a PCGS population of twelve. We think it's closer to seven or eight. Legend-Morphy sold the lone MS66 in 2013 for \$161,000.00 (2013) and even an NGC non CAC sold for \$70,500.00 in 2014. This is an extremely rare opportunity to buy a real gem 1893-CC. Opportunity knocks! This coin is being sold with no reserve. Certification Number 28286117 PCGS # 7222		
	64 <u>\$1 1893-O PCGS MS66PL CAC EX ELIASBERG</u>	Estimate: 350,000.00 - 400,000.00 USD
CORONET COLLECTION This is yet another special former Eliasberg coin that makes you wonder if it's really a Specimen or possibly a Proof. One thing's for sure, this off the charts coin is the all time finest 1893-O! If you want to really scrutinize this piece, there are a few microscopic ticks scattered around, but overall the surfaces are extremely clean. Both sides exhibit nearly flawless, icy, 4" mirrors, and nearly 6" mirrors on the reverse with great clarity. A warm, sensational mix of original blue/violet/pale burnt orange/lavender colors is spread all over. Miss Liberty and the details are frosted and well struck. The eye appeal is phenomenal! PCGS 1, NGC 0, CAC 1. Besides the Eliasberg sale, the only time this coin has ever sold at auction was eleven years ago when this coin brought \$166,750.00 and we've seen other significant coins from that time period sell for 3-5 times as much today. The Coronet Collector purchased this coin via private treaty for a sum in excess of \$500,000.00. An 1893-O in gem was the one coin that had eluded him for nearly a decade. This is a far rarer date and grade than you might realize. Good luck! This coin is being sold with no reserve. Certification Number 28286118 PCGS # 7225		
	65 <u>\$1 1795 B-7 BB-18 SILVER PLUG PCGS XF45</u>	Estimate: 25,000.00 - 27,500.00 USD
EX HESSELGESSER This coin is the equivalent of numismatic nirvana! The plug is light, but still visible with a strong glass and the surfaces are lustrous and basically mark free. A gritty mix of deep golden brown/pale purple evenly blankets both sides. Miss Liberty and the details are well struck. The eye appeal is decent! PCGS 8, NGC 6. This coin last sold at auction for \$34,500.00 over seven years ago (2/08) and the current Collectors Universe value is \$36,500.00. You don't see these offered very frequently! Good luck! 	66 <u>\$1 1798 LARGE EAGLE PCGS VF20</u>	Estimate: 2,000.00 - 2,250.00 USD
We are pleased to have been consigned this lovely, evenly worn Bust Dollar. There is no unsightly discoloration on the high points and the lightly worn surfaces are all smooth and surprisingly clean. Both sides are an original pewter/deep silver color. Miss Liberty and the details are worn but do have decent strikes. The eye appeal is wonderful! PCGS 179, NGC 57. The current Collectors Universe value is \$2,600.00. Opportunity knocks loudly here! This coin is being sold with no reserve. Certification Number 29470800 PCGS # 6873		
	67 <u>\$1 1802 PCGS XF40</u>	Estimate: 4,750.00 - 5,000.00 USD
This is a choice AU piece! The surfaces look clean to the naked eye, but you can see some tiny scattered ticks with a strong glass. A mix of pale golden brown/deep lavender/light pewter colors is spread all over. Miss Liberty and the details are evenly worn and there is no discoloration from the wear. The eye appeal is wonderful! PCGS 72, NGC 33. The current Collectors Universe value is \$4,700.00, but when you see how nice this coin is, you'll know it's worth more! This coin is being sold with no reserve. 	68 <u>\$1 1803 LARGE 3 PCGS VF30 CAC</u>	Estimate: 2,750.00 - 3,000.00 USD
This is a superb example of a tougher date Bust Dollar. The undipped, unaltered surfaces are remarkably clean and smooth, with no imperfections to be found, even through a strong glass. The color is an original, deep silver/pewter. Miss Liberty and the details are evenly worn with good strikes. The eye appeal is great! PCGS 41, NGC 2, CAC. The current Collectors Universe value is \$3,450.00. With this kind of quality and a CAC sticker, we expect strong bidding. Good luck! This coin is being sold with no reserve. Certification Number 30762475 PCGS # 6901		
	69 <u>\$1 1846 PCGS MS63 CAC</u>	Estimate: 5,000.00 - 5,500.00 USD
This incredibly choice coin is one of the better \$1 1846 MS63s we've ever seen! The surfaces are extremely clean and smooth with only a few tiny ticks being revealed through a strong glass. A surprisingly strong luster shows off moderate, original shades of purple/pale navy/deep champagne colors. Miss Liberty and the details are frosty and have crisp strikes. The eye appeal is fabulous! PCGS 14, NGC 12, CAC 4. The last PCGS piece to sell at auction was back in 2006! Nine years with no examples on the auction scene speaks volumes about this coin's real rarity! The current Collectors Universe value is \$6,250.00. Good luck! This coin is being sold with no reserve. Certification Number 21832473 PCGS # 6932		

	70 <u>\$1 1859-O PCGS MS64 CAC</u> Estimate: 7,000.00 - 7,750.00 USD
	Seriously above average! Not at all like the typical crusty, hacked up pieces you usually see. You can see this coin's full, booming luster from across the room! The luster shows off sleek, clean surfaces that only reveal some contact marks and lines on the obverse, as well as a small bag mark at 12:00 on the reverse. Both sides have thin band of blue framing parts of the rims, while the centers are a faint gold/silvery color. This coin appears to be legitimately undipped and unaltered. Miss Liberty and the details are frosty and have crisp sharp strikes. The eye appeal is fantastic! PCGS 25, NGC 22, CAC 5. PCGS has graded only two coins higher and the last PCGS CAC piece to sell at auction brought \$7,475.00 (11/11). You're not going to nice examples like this very often. L This coin is being sold with no reserve. Certification Number 25285521 PCGS # 6947
	71 <u>\$1 1859-S PCGS MS63</u> Estimate: 25,000.00 - 27,500.00 USD
	This is an nice example of an extremely difficult date to find in truly choice condition. A few nicks and a light scrape can be seen on the obverse, but the reverse is clean overall. It looks like this coin was lightly dipped a while back, but is coming back nicely. Both sides have light, Mint made die polishing lines and an unusually strong luster. The color is a deep silver/gold. Miss Liberty and the details are sharply struck and stand out well. The eye appeal is decent. PCGS 7, NGC 4. PCGS has graded only two coins finer and both are squirreled away in collections. The last PCGS piece to sell at auction brought \$28,200.00 (6/14). This is a very important opportunity for anyone building an MS Seated Dollar set. Good luck! This coin is being sold with no reserve. Certification Number 50007410 PCGS # 6948
	72 <u>\$1 1871-CC PCGS AU50</u> Estimate: 16,000.00 - 18,000.00 USD
	We really like this coin for an AU50. Our counterparts have handled the 1871-CC MS64 in the Legend Collection and they know the condition these tend to come in. We think this coin may have had a light cleaning long ago, but it is has come back very nicely. The surfaces are clean and show faint traces of semi-prooflike mirrors. A deep pewter/champagne color evenly covers both sides. Miss Liberty and the details are very well struck. The wear is light and even and for an 1871-CC this piece displays really nice eye appeal! PCGS 7, NGC 2. The last of these to sell at auction realized \$20,700.00 nearly six years ago (9/09)! The current Collectors Universe value has remained steady at \$21,000.00. We think Carson City collectors, as well as MS Seated Dollar collectors, will have a keen interest in this coin. Good luck! This coin is being sold with no reserve. Certification Number 30840540 PCGS # 6967
	73 <u>\$1 1858 PCGS PR64 CAC</u> Estimate: 20,000.00 - 22,000.00 USD
	You rarely see coins as nice as this anymore. Deep, crisp mirrors have remarkable clarity and reflectivity. They appear extremely clean to the naked eye, but you can see a few thin, scattered lines with a strong glass that keep this coin from a PR65 designation. A moderate deep pewter/deep silver mix is spread all over. Miss Liberty and the details are lightly frosted in silver and stand out with crisp, full strikes. The eye appeal is beautiful! PCGS 7, NGC 12, CAC 1. Just 300 pieces were minted for this proof only date. The last PCGS PR64 sold at auction back in 2008 for \$19,550.00 but was not CAC. The current Collectors Universe value is \$25,000.00. We can see both Type and Proof Seated Collectors battling it out over this elusive, superb gem! Good luck! 	74 <u>T\$1 1873 TRADE PCGS MS64</u> Estimate: 3,250.00 - 3,750.00 USD
	This is a way above average 1873 which unfortunately may have been lightly dipped a while back. Even so, it has come back nicely. Superior surfaces include traces of semi-prooflike mirrors along with a bold luster. Both sides are totally white, while any ticks, scrapes, or lines are held to a bare minimum. Miss Liberty and the details are frosty and have exceptional strikes. The eye appeal is terrific! PCGS 47, NGC 33. The last PCGS piece to sell at auction brought \$3,668.00 (1/15) in a weaker sale and the current Collectors Universe value is \$5,250.00. We think this piece will be more than acceptable in any choice set. Good luck! This coin is being sold with no reserve. Certification Number 25233576 PCGS # 7031

	76 <u>T\$1 1876 TRADE PCGS MS64</u> Estimate: 2,750.00 - 3,000.00 USD
	This piece is more of a typical 1876. The smooth surfaces are extra clean and while the obverse has a few hidden ticks/lines, the reverse is full MS65 caliber. A moderate luster shows off semi dusky, sandy, creamy white colors. Miss Liberty and the details are sharply struck and stand out nicely. The eye appeal is excellent! PCGS 120, NGC 108. Miss Liberty and the details are thickly frosted and needle sharp in strike. The eye appeal is tremendous! PCGS 9, NGC 9, CAC 3. This is a proof only date with just 1,097 minted and there have been no PCGS pieces sold at any major auctions since 2010. 	138 \$1 1890-O PCGS MS65 Interesting, moderate toning evenly covers both sides. Clean, smooth surfaces harbor a moderate luster that enhances a thick, deep navy ring of color by the rims. The centers are a slightly mottled, deeper golden brown/pale purple mix. Miss Liberty and the details are well struck. The eye appeal is interesting! PCGS 592, NGC 199. The last to sell at auction brought \$2,233 (2/15), but we doubt you'll see another 1890-O with this kind of toning! This coin is being sold with no reserve. Certification Number 18223467 PCGS # 7200	Estimate: 1,500.00 - 1,750.00 USD
	139 \$1 1891-CC NGC MS64 This pleasing, high-end piece isn't quite a borderline MS65 but it's still a solid MS64! The obverse has a few light frost breaks/scuffs, but the reverse is immaculate. Both sides are a pure white. Miss Liberty and the details are frosty and fully struck. The eye appeal is excellent! PCGS 3405, NGC 1684. The last 1891-CC NGC MS64 to sell at auction brought \$1,645.00 (4/15) and the current Collectors Universe value is \$1,600.00. This coin has been off the market since 1999. 	140 \$1 1891-CC PCGS MS64 This high-end coin is housed in an older holder. There are no major scuffs, just a few tiny scattered ticks. The surfaces are satiny and smooth, while a strong luster shows off original, creamy white surfaces. Miss Liberty and the details are frosty and fully struck. The eye appeal is nice! PCGS 3405, NGC 1684. The current Collectors Universe value is \$1,650.00. This coin has been off the market since 1999 and will be a nice addition to any set! This coin is being sold with no reserve. Certification Number 5006429 PCGS # 7206	Estimate: 1,000.00 - 1,250.00 USD
	141 \$1 1891-CC PCGS MS65+ Like the 1890-CC offered earlier, this coin is also an originally toned superb gem! The surfaces are exceptionally clean and smooth, while a moderate luster shows off some slightly irregular toning. The obverse consists of original pale russet/golden brown/blue/pale tangerine, while the reverse is more of a pewter/light golden brown. Miss Liberty and the details are fully struck and the eye appeal is decent! PCGS 607, NGC 190. The last PCGS MS65+ piece to sell at auction brought \$5,170.00 (1/14) in a weaker auction and the current Collectors Universe value is \$8,150.00. If you're not a fan of blast white Morgans, you need to check this piece out! Certification Number 25373773 PCGS # 7206	Estimate: 4,250.00 - 4,750.00 USD
	142 \$1 1892-CC PCGS MS62 The obverse has a slightly scruffy look, while the reverse is clean. Both sides are highly lustrous and we grade the reverse a full MS63. About a quarter of the obverse has traces of gold, while the reverse is completely white. Miss Liberty and the details are frosty and well struck. The eye appeal is nice! PCGS 1718 NGC 1645. The last to sell at auction brought \$1,586.00 (1/15) in a weaker sale. The current Collectors Universe value is \$1,850.00. This coin is being sold with no reserve. Certification Number 5003043 PCGS # 7214	Estimate: 1,250.00 - 1,500.00 USD
	143 \$1 1893-CC PCGS MS62 This original coin is boldly semi-prooflike. The obverse has some slight scuffs and ticks while the reverse is remarkably clean. There is also some light frost/pale milkiness in the fields. Miss Liberty and the details are frosty and are about 90% fully struck. The eye appeal is flashy! PCGS 1106, NGC 528. The last PCGS piece to sell at auction brought \$4,994.00 (3/15). This coin has been off the market since 1999 and is in its original holder. This coin is being sold with no reserve. 	144 \$1 1893-CC PCGS MS63 This is an excellent quality 1893-CC with light cameo contrast. There are some minor ticks scattered on the obverse, but nothing big or detracting. The surfaces have no toning but are loaded with a booming luster and have traces of semi-prooflike mirrors. Miss Liberty and the details are fully struck and have generous frost. The eye appeal is nice! PCGS 1054, NGC 542. The last to sell at auction brought \$9,988.00 (2/15) and we expect this coin to get there! This coin is being sold with no reserve. Certification Number 25385794 PCGS # 7222	Estimate: 8,000.00 - 9,000.00 USD
	145 \$1 1894-S PCGS MS65+ CAC We think one tiny bag mark hidden behind Miss Liberty on the obverse and a few tiny, trivial ticks on the reverse are what keep this high-end coin from an MS67 designation. A light, satiny luster enhances navy/purple toning around the details and pale gold/champagne centers. Miss Liberty and the details are fully struck. The cheek is amazingly clean and will more than please the pickiest buyer. The eye appeal is great! PCGS 144, NGC 44, CAC 22. PCGS has graded only five in MS65+ and the last PCGS CAC piece to sell at auction brought \$9,106.00. Today, an MS66 would cost you upwards of \$20,000.00 if you could even find one! This coin is being sold with no reserve. Certification Number 25288283 PCGS # 7232	Estimate: 7,500.00 - 8,500.00 USD
	146 \$1 1895-O PCGS AU50 This coin is from the same collection as the Carson City group and displays a decent luster. It has the typical lines and scattered ticks that you'd expect from an AU50. The color is an original, pale reddish golden brown/silver and the details are actually well struck. The eye appeal is nice! PCGS 593, NGC 416. The last PCGS piece to sell at auction brought \$852.00 (3/15). This coin has been off the market since 1999 and is in its original holder. This coin is being sold with no reserve. Certification Number 08453498 PCGS # 7236	Estimate: 700.00 - 800.00 USD

	147 <u>\$1 1895-O PCGS MS61 CAC</u>	Estimate: 17,500.00 - 20,000.00 USD
This very high-end piece is housed in an old blue tag holder and is clearly closer to an MS62 than an AU58 or MS60. The surfaces have just a few light, scattered ticks, but nothing huge or detracting. A strong luster shows off above average surfaces with light toning. Overall, the color is an original pewter/silvery white and there's no question that this coin is both undipped and unaltered. Miss Liberty and the details are very well struck. The eye appeal is excellent! PCGS 34, NGC 58, CAC 5. There have been no PCGS CAC coins sold via major auction, but the current Collectors Universe value is \$19,500.00. We expect this coin to see spirited bidding as you never see these offered at shows. Good luck! This coin is being sold with no reserve. Certification Number 4939725 PCGS # 7236		
	148 <u>\$1 1895-S PCGS MS64 CAC</u>	Estimate: 8,000.00 - 9,000.00 USD
This is a very pleasing near miss gem and belongs in any premium set. You can see the typical striations in the fields that this date exhibits, but ticks and lines are held to a minimum. A full, booming luster shows off original white surfaces. Miss Liberty and the details are heavily frosted and have bold strikes. The eye appeal is great! PCGS 421, NGC 229, CAC 57. The last PCGS CAC piece to sell at auction brought \$12,925.00 (4/14) and the current Collectors Universe value is \$10,500.00. We expect spirited bidding on this lovely 1895-S! This coin is being sold with no reserve. Certification Number 21655818 PCGS # 7238		
	149 <u>\$1 1895-S NGC MS64</u>	Estimate: 8,000.00 - 9,000.00 USD
This is a pleasing coin, especially since this date and grade doesn't usually come in good shape. Only light chop is seen on this piece, and typical Mint made die striations are present, as are a few tiny ticks, but no serious problems. There is a hint of slightly prooflike mirrors, as well as a light hint of gold, but overall the coin is white. Miss Liberty and the details are fully struck and thickly frosted. The eye appeal is decent! PCGS 421, NGC 229. The last to sell at auction brought \$9,106.00 (8/14) and we expect this to do about the same. Certification Number 3829962-002 PCGS # 7238		
	150 <u>\$1 1896 PCGS MS67 CAC EX SIMPSON</u>	Estimate: 4,000.00 - 4,500.00 USD
A thin, stunning blue/gold/violet crescent frames the rims, while the centers are a full, crisp white. Both sides are clean, enlivened by a full, booming luster. Miss Liberty and the details are frosty and have sharp, stand out strikes. The eye appeal is fantastic! PCGS 199, NGC 98, CAC 60. The current Collectors Universe value is \$4,900.00, but this coin has a long track record of trading privately for significantly more. We wouldn't be surprised to see this coin in an MS67+ holder one day! This coin is being sold with no reserve. Certification Number 06666010 PCGS # 7240		
	151 <u>\$1 1896-O ANACS MS61</u>	Estimate: 250.00 - 275.00 USD
We strongly advise you inspect this piece before bidding as we suspect it has been dipped at some point. The surfaces harbor a few small scrapes and cuts and the luster is a little washy. Some reddish gold frames parts of the rims. Miss Liberty and the details are sharply struck and the eye appeal is marginal. This potentially dipped coin is closer to an AU58, which would be valued around \$500.00 if it were graded by PCGS. This coin is being sold with no reserve. Certification Number 401419 PCGS # 7242		
	152 <u>\$1 1897 PCGS MS67</u>	Estimate: 7,500.00 - 8,500.00 USD
This is a real MS67 by anyone's tough standards! Impressive surfaces are exceedingly clean and smooth, while the only real disturbances are a light, Mint made grease stain on the reverse. A thick, unbroken satiny luster shows off the original, thick white color. Miss Liberty and the details are lightly frosted and crisply struck. The cheek is remarkably clean and smooth and the eye appeal is fabulous! PCGS 29, NGC 11, CAC 3. The last PCGS MS67 to sell at auction brought \$8,225.00 (6/13). Don't be fooled by the Pop Reports, these aren't anywhere near as common as you might think! This coin is being sold with no reserve. Certification Number 25266114 PCGS # 7246		
	153 <u>\$1 1899-O MICRO O WING LINES PCGS MS66 CAC</u>	Estimate: 50,000.00 - 55,000.00 USD
This piece is the finest known Micro O specimen. The surfaces are slightly semi-prooflike, display a full, booming luster, and reveal just a few tiny ticks through a strong glass. Both sides are totally white and unaltered. Miss Liberty and the details are fully struck and coated with generous frost. The eye appeal is great! PCGS 1, NGC 1, CAC 1. This the first auction appearance for this MS66 Micro O. An MS65+ sold for \$32,900.00 (1/15) and the current Collectors Universe value is \$100,000.00. This is not some obscure VAM. This Micro O ranks among the rarest and most desirable Morgan Dollars and we expect intense bidding on this finest known rarity! Good luck! This coin is being sold with no reserve. Certification Number 25218421 PCGS # 87260		
	154 <u>\$1 1899-O PCGS MS67+ CAC</u>	Estimate: 12,500.00 - 15,000.00 USD
This may be one of the finest 1899-O's in existence. Sensational, ultra clean surfaces are joy to behold and you can only detect a small frost break/mark through a strong glass. A bold, glowing luster enhances beautiful, original pale navy/blue/russet/pale magenta/golden brown shades that swirl along the peripheries. Miss Liberty and the details are sharply struck and stand out nicely. The cheek is remarkably clean and smooth and the eye appeal is tremendous! PCGS 122, NGC 113, CAC 30. The last PCGS CAC 1899-O MS67+ to sell in a major auction brought \$17,625.00 (1/14). We assure you, this coin is original and unaltered. It will be a superstar in whatever collection it resides in! Good luck! This coin is being sold with no reserve. Certification Number 25334426 PCGS # 7260		
	155 <u>\$1 1903-S PCGS MS66+</u>	Estimate: 22,000.00 - 25,000.00 USD
This darling 1903-S gem is truly a borderline MS67! Extremely clean, smooth surfaces exhibit a strong luster that enhances a wonderful mix of pale olive/blue/gold/violet on the obverse. The reverse has a pale golden brown/blue/pastel violet semi circle. Miss Liberty and the details are fully struck and stand out wonderfully. The eye appeal is very nice! PCGS 33, NGC 8. PCGS has graded only three coins in MS66+ and no PCGS MS66+ has ever sold at auction. The current Collectors Universe value is \$26,500.00. This coin will be a prize in whatever collection it calls its new home! Certification Number 25696255 PCGS # 7288		
	156 <u>\$1 1921 MORGAN PCGS MS66</u>	Estimate: 750.00 - 850.00 USD
We can't put down this gorgeous piece! An intense, booming luster shows off ultra clean, satiny surfaces that offer faint hints of semi-prooflike mirrors. This coin is completely white, without a hint of toning to be found. Miss Liberty and the details are thickly frosted and fully struck. There is even light contrast. The eye appeal is gorgeous! PCGS 434, NGC 600. The last to sell at auction brought \$1,545.00 (1/15) in a weaker sale. We expect strong bidding on this magnificent coin! This coin is being sold with no reserve. Certification Number 31921204 PCGS # 7296		

	157 <u>\$1 1922 PCGS MS64 CAC</u> At the very least this coin should be a MS64+, especially since it's nearly impossible to find any light lines or ticks. A glowing luster makes semi-electric shades of raw gold/amber/violet/green explode over the obverse, while the reverse has just a hint of color by the rims. The toning makes Miss Liberty and the details stand out like a painting. The eye appeal is stunning and we rank this coin a 9 on our 1-10 color scale. Be prepared, we expect heavy bidding here! This coin is being sold with no reserve. Certification Number 20515718 PCGS # 7357	Estimate: 500.00 - 550.00 USD
	158 <u>\$1 1922-S NGC MS64*</u> This is an extremely rare S Mint Peace Dollar with incredible toning on both the obverse and reverse! Clearly this coin had resided in an album for many years and you don't even need to tilt the coin to see the toning. An intense luster shows off flaming rings of blue/pale magenta/purple/gold that open into aqua green/blue centers. There are honestly too many colors to even mention, and we rank this coin a solid 9 on our 1-10 color scale. Any Peace Dollar collector who loves toning knows what an extreme rarity a coin like this is. We can see this piece possibly bringing a record price! Good luck! This coin is being sold with no reserve. Certification Number 1903852-005 PCGS # 7359	Estimate: 1,500.00 - 1,750.00 USD
	159 <u>\$1 1923 PCGS MS66 CAC</u> Marvelous original toning! It's very difficult to find fully toned gem Peace Dollars like this! Save for a tiny scattered tick or two, this coin is very clean. You can see the surfaces through the toning and there is no question this is a true MS66. The colors are slightly mottled. Rich, original, deeper shades of forest green/magenta/olive/gold pale blue swirl evenly on the obverse, while the reverse is slightly gold but mostly a creamy white. The eye appeal is very colorful! This coin is being sold with no reserve. Certification Number 50052550 PCGS # 7360	Estimate: 2,000.00 - 2,250.00 USD
	160 <u>\$1 1925 PCGS MS64 CAC</u> Just a few tiny ticks keep this marvelous, high-end coin from full MS65. The obverse is a lively, with gorgeous, original, gold/golden brown/pale violet/green colors, while the reverse is a sea green/silvery mix. If you need a pretty toned Peace Dollar, look no further! The eye appeal is heart pounding! This coin is being sold with no reserve. Certification Number 25213129 PCGS # 7365	Estimate: 750.00 - 850.00 USD
	161 <u>\$1 1927 PCGS MS65 CAC</u> A full, booming luster reveals a few trivial frost breaks on sleek, clean, undipped surfaces. Only a few tiny ticks on the eagle can be seen with a strong glass. Both sides are a light golden brown/greenish gold color. Miss Liberty and the details are exceptionally struck. The eye appeal is very nice! PCGS 308, NGC 126, CAC 45. The last PCGS CAC piece to sell at auction brought \$4,112.00 (12/14). These have become difficult to locate. Good luck! This coin is being sold with no reserve. 	162 <u>\$1 1928-S PCGS MS65</u> It's rare to find one of these in original condition! The surfaces are superb, with practically no ticks, scuffs, or lines to be found. The appearance is smooth and satiny, while a decent luster shows off even, light champagne/dove gray colors with some faint, reddish gold by the rims. Miss Liberty and the details are above average in strike and display minor softness. The eye appeal is excellent! PCGS 54, NGC 43. The last PCGS piece to sell in a major auction brought \$15,275.00 (1/15) in a weaker sale. The current Collectors Universe value is \$22,000.00. 	163 <u>\$1 1934 PCGS MS66+ CAC</u> This is an incredible gem Peace Dollar and is worlds better than most 1934-Ps! A nearly full, headlight luster beams from all over and reveals one small frost break/scuff that probably keeps this coin from a full MS67 designation. Overall, the surfaces are clean and smooth and the reverse is certainly a full MS67. Both sides are mostly original with with a few splashes of beautiful gold. Miss Liberty and every detail are frosty and sharply struck. The eye appeal is phenomenal! PCGS 161, NGC 38, CAC 39. The surfaces have a slight gloss and both sides are an original deeper brown color. Miss Liberty and the details are well struck. The eye appeal is really nice! PCGS 8, NGC 2. The last of these to sell at auction brought \$2,115.00 (7/13). This is not a date you see in any grade very frequently. PCGS # 1042 EST: \$1,850.00+ This coin is being sold with no reserve. H1C 1855 PCGS MS65BN CAC (31343774) - It's hard to imagine how this stayed in such pristine condition for 160 years, but there's nothing not to love about this piece. The surfaces are satiny smooth, while a light luster shows off original chocolate brown that enjoys some Mint red around the features. There are no spots or discolorations. The eye appeal is exceptional! PCGS 45, NGC 84, CAC 16. The current Collectors Universe value is \$1,175.00 but we could see this coin topping that easily! This coin is being sold with no reserve. 	166 <u>1/2C 1854 PCGS MS65RB CAC</u> This high-end coin is nearly 85% full gem Mint red! You can only find some tiny, scattered toning dots with a strong glass, but overall, the surfaces appear clean and smooth. A decent luster shows off the original red colors and light brown highlights. Miss Liberty and the details are frosty and sharply struck. The eye appeal is awesome! PCGS 17, NGC 19, CAC 10. The value in this coin is a combination of the color and the high-end quality. We believe it's worth much more than the \$2,800.00 Collectors Universe value! Good luck! 	167 <u>1/2C 1855 PCGS MS65BN CAC</u> There are zero impairments to be found on this fantastic gem! The spotless surfaces are semi-satiny smooth, with a chocolate brown obverse and a brown reverse with healthy doses of original Mint red. Miss Liberty and the details are sharply struck and stand out nicely. The eye appeal is fantastic! PCGS 47, NGC 85, CAC 17. The current Collectors Universe value is \$1,175.00, but considering this is a 160-year-old gem copper piece, we feel the current value seems a little low! This coin is being sold with no reserve. Certification Number 25695846 PCGS # 1233	Estimate: 950.00 - 1,050.00 USD

	169 <u>1/2C 1843 ORIGINAL PCGS PR63BN CAC</u> Even though this coin is only graded PR63BN, it is still very choice. The obverse has a few lines and a touch of roughness but the reverse is super clean and in our opinion would grade a PR64. Incredibly deep mirrors have intense reflectivity and show numerous tiny toning dots on the obverse. Both sides are an original chocolate/pale olive color. Miss Liberty and the details are needle sharp and the eye appeal is very pleasing! PCGS 6, NGC 0, CAC 1. Only 21 pieces were minted, which is less than an 1894-S Dime! This piece last sold five years ago for \$6,900.00 (6/10), but we expect this piece to sell for a slightly higher number than it did in 2010. Certification Number 06652062 PCGS # 1266	Estimate: 7,000.00 - 7,750.00 USD
	170 <u>1C 1807/6 LARGE 7 PCGS AU53BN</u> We love this glossy gem AU! The surfaces offer only a few, old light ticks and both sides have a light luster/gloss. The color is a rich brown/pale olive and there is an interesting planchet flake by the cheek. Miss Liberty and the details are well struck. The eye appeal for this 208-year-old rarity is pleasing! PCGS 3, NGC 0. PCGS has graded only eighteen higher after over thirty years of operations. The last to sell at auction realized \$4,700.00 (1/14). Opportunity knocks! Certification Number 31344726 PCGS # 1528	Estimate: 2,600.00 - 3,000.00 USD
	171 <u>1C 1816 PCGS MS64RB CAC</u> This borderline MS65RB is extremely high end. There is a large stain on the obverse, but that shouldn't affect the grade. The surfaces are smooth and very clean, while a decent luster shows off plenty of original, faded Mint red. Miss Liberty and the details are frosty and have exceptional strikes. The eye appeal is top notch! PCGS 13, NGC 14, CAC 18. The current Collectors Universe value is \$3,250.00. This coin should see strong bidding and results around that price. Good luck! Certification Number 06695161 PCGS # 1592	Estimate: 2,750.00 - 3,000.00 USD
	172 <u>1C 1823/2 N-1 PCGS AU53BN CAC EX BOKA</u> This "gem AU" is a very pleasing example of a rare and underrated date. You detect a few tiny scattered ticks with a strong glass but there are no major problems. The color is an even chocolate brown and the wear is very light. Miss Liberty and the details are sharply struck and stand out nicely. The eye appeal is fabulous! PCGS 4, NGC 3, CAC 1. PCGS and NGC each have graded only one coin in MS. This coin's history is equally interesting, which reads as follows: W.E Webster, Jim Mitchell (11/84), Robert Matthews (5/89), Jon "Al" Boka (9/11) \$14,375.00. This coin is direct from the cabinet of a major east coast Large Cent collector and there is no question this piece will be a prize addition to any great Large Cent collection. 	173 <u>1C 1824/2 PCGS MS63BN CAC EX ELIASBERG</u> We're madly in love with this superior coin, though we can't figure out why it's only an MS63BN. The surfaces are remarkably clean and smooth, with no oil, grease, flecks, or problems to be found, even with a strong glass. A surprisingly strong luster/gloss beams from all over. The colors are an original deep brown/deep golden brown with hint of Mint red and no blotchy patches. Miss Liberty and the details are fully struck and boldly stand out. You do not need a glass to see the overdate. The eye appeal is fabulous! PCGS 4, NGC 3, CAC 2. The last example of this date to sell at auction realized \$32,900.00 (8/13) and the current Collectors Universe value is \$35,000.00. 	We love everything about this superb AU piece! There is a very slight film over the surfaces, which harbor few hits, scuffs, or problems. There are traces of semi-prooflike mirrors and both the flash and luster are strong. Both sides are an even, deeper gold color. Miss Liberty and the details are frosty and fully struck. The wear is light and hard to find. The eye appeal is impressive! PCGS 3, NGC 2. The current Collectors Universe value is \$60,000.00. This isn't a date or grade you see offered with any frequency and will be a terrific addition to any early \$5 collection. Good luck! Certification Number 2864442 PCGS # 8152

PCGS 3, NGC 7. PCGS has graded only one MS62 higher. This is an extremely rare date and grade! The last PCGS piece to sell brought \$19,974.00 (4/14) and prior to that none had sold since 2006! There is one NGC MS63 but it is not CAC approved. The overall rarity of this date in MS cannot be overstated and it is a powerful statement that PCGS has graded none higher. A strong luster shows off superb, original, spotless deeper yellow gold surfaces with no discoloration. All details are bold and sharply struck. The eye appeal is really nice for an MS63! PCGS 95, NGC 51, CAC 8. The last PCGS coin to sell at auction brought \$52,875.00 (7/14) and the current Collectors Universe value is \$53,000.00. 	421 <u>\$10 1838 PCGS AU50 EX SIMPSON/HALL</u> This is a pleasing example of a notoriously weakly struck, heavily handled, ugly date. Miss Liberty and the details are sharply struck, the wear is light and even, and the eye appeal is nice! PCGS 9, NGC 13. Only 7200 were minted and the last to sell at auction brought \$15,525.00 (9/09). The current Collectors Universe value is \$18,500.00. Miss Liberty and the details are frosty and crisply struck. The eye appeal is terrific! PCGS 4, NGC 4. PCGS has graded only two coins higher and one of those has not been auctioned in almost a decade! The current Collectors Universe value is \$11,000.00. 	423 <u>\$10 1850-O PCGS AU53 EX SIMPSON/HALL</u> Very pleasing quality with sleek, slightly semi-prooflike surfaces that emit a decent luster. Any ticks are minimal and widely spread out, and although a few light lines can also be found, none are serious. Both sides are a beautiful, spotless deeper yellow gold with no discoloration. Miss Liberty and the details are well struck, which is important since most O Mints during this timeframe are not. The eye appeal is excellent! PCGS 10, NGC 27. The last PCGS 1850-O to sell at auction brought only \$3,525.00 (1/13) and the current Collectors Universe value is \$5,400.00. You're not going to see these offered with any frequency! 	425 <u>\$10 1859-O PCGS AU55 EX SIMPSON/HALL</u>	Estimate: 52,500.00 - 57,500.00 USD
As you would expect, the Simpson/Hall Collection of \$10 Liberties, the former #1 set on the PCGS Registry, includes some of the finest pieces available. We're pleased to offer collectors this exceptional 1859-O, which took David Hall several years to find and is currently tied for second finest. Lightly prooflike mirrors are clearly visible and although the surfaces do have some light ticks and lines, none are serious or stand out. A very strong luster, which this date is not known for, shows off deeper, spotless yellow gold colors and no discoloration. Miss Liberty and the details are frosty and have remarkably sharp strikes. The eye appeal is really nice! PCGS 5, NGC 4. Only 2300 were ever minted and PCGS has graded only one AU58 higher. The last PCGS piece to sell at was nine years ago when one brought \$52,900.00. The current Collectors Universe value is \$55,000.00, though we think that may be a bit low based on the populations and lack of recent auction appearances! If you're building a higher grade O Mint collection, this may be your only chance at a better 1859-O for a long time! Good luck! This coin is being sold with no reserve. Certification Number 29583041 PCGS # 8629

	429 <u>\$10 1879-S PCGS MS62 EX SIMPSON/HALL</u>	Estimate: 1,750.00 - 2,000.00 USD
We think the small ticks on the cheek are all that keep this very high-end coin from an MS63 designation. Overall, the surfaces appear clean, and while there are some scattered ticks and a line or two, none are serious. A full, booming luster shows off pretty, spotless, original deeper yellow gold. Miss Liberty and the details are fully struck and have light frost. The eye appeal is superb! PCGS 21, NGC 13. The last to sell in a major auction brought only \$1,998.00 (1/13), but the current Collectors Universe value is \$3,150.00.
